Dear Mavis,

What an honor it is to thank you for Olight's donation of personal protective equipment (PPE). We are so grateful for your generosity and commitment to keeping our teams safe and mitigating the spread of COVID-19 through our community.

All across Duke Health, from the School of Medicine and School of Nursing to our research labs to the front lines of our clinics and hospitals, our clinicians, nurses, and researchers are mobilized and responding to the pandemic with remarkable courage. Thanks to your gift, they are able to meet this unprecedented challenge safely, with determination and excellence.

Again, thank you for being an essential partner in the fight against COVID-19. I send my best wishes to you and yours for health, safety, and wellness.

Sincerely,

William J. Fulkerson, M.D.
